Doctoral training in Academy projects

- Consider how you could include a doctoral researcher into your project.

- The strengthening of doctoral training can be implemented through the **projects' salary costs**:

  1. The salary costs of doctoral researchers working on the project to an extent that is justified in terms of the research plan. **The tasks and roles of the doctoral researchers and the promotion of their research careers must be clearly set out in the research plan.**

  2. Principal investigator's salary costs associated with supervising the researchers' thesis work, maximally 2 months per 4-year project. **Pay attention to the different PI salary categories when filling the budget in the online services**. The salary needs to be justified in the application

- **The budget needs to be realistic and justified.**
